DEPENDABLE HOLLAND BULBS

The Glorious Tall... MAY-

Of all the Spring flowers, Tulips are the most popular. The bulbs require no attention whatever after they are planted and the blooms are unequalled for richness of color and magnificence by other plants in their class. Whether they are placed in formal beds or used here and there in the shrub border, Tulips are certain to produce an excellent display in the early Spring months when flowers are so scarce. If a number of different varieties are planted, the blooming season can be extended over a period of three to four weeks. Plant the bulbs 5 to 6 inches apart and cover them with 3 to 4 inches of soil. For house culture, 4 to 6 bulbs can be placed in a 6-inch pot. Keep them in a cool, dark place until the roots are well established, then bring them into the light. Letters A, B, C, and D indicate the relative blooming periods; A is followed by B, etc. Height is given in inches to aid in arranging flower beds.

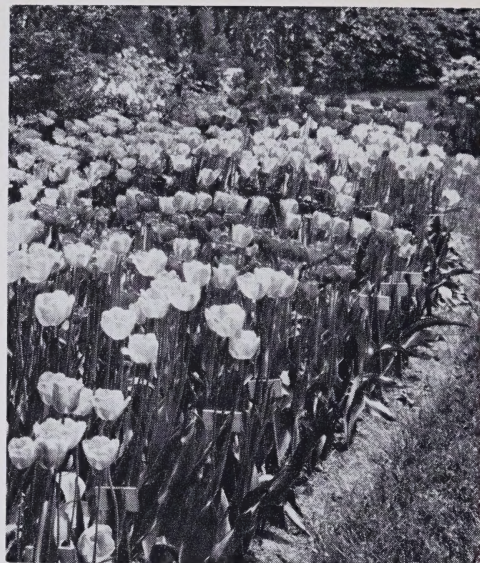

From present indications the supply of Tulip bulbs will be extremely short. When ordering please give us the privilege of substituting.

Beautiful Pearl Chips. Lb. 10c.; 3 lbs. 25c.
Polished and glistening, free from dirt. Pre-
pared especially for bulb culture in fancy dish.
Exceedingly attractive in glass bowls and in strong
demand for goldfish globes and aquaria.

Hyacinths

Cadwell & Jones Special EXHIBITION HYACINTHS

The outdoor cultivation of Hyacinths is quite similar to that of Tulips, except that the bulbs should be set farther apart—about 8 to 10 inches. For house culture pot the bulbs any time from September to December, using a light, rich soil and bone fertilizer. Place the pots outdoors and cover them with 4 to 6 inches of leaves. After 10 to 12 weeks they may be brought indoors a few at a time.

If Hyacinths are grown in glasses the bases of the bulbs should barely touch the water. The glasses should be set in a cool, dark place until they are full of roots.

Principally used for forcing; trusses and blooms very large if given proper attention.

40c. each; \$4.00 per doz.; \$30.00 per 100

- General De Wet**. Large, light pink flowers.
- Grand Maitre**. Fine, deep porcelain-blue.
- King of the Blues**. Deep glossy blue; well-formed trusses.
- Lady Derby**. Delicate rose-pink.
- L'Innocence**. Splendid pure white bells are borne in a perfect truss.
- La Victoire**. Deep crimson-red with a large, full spike.
- Marconi**. Very commendable rosy pink.
- Perle Brilliant**. Very large, light blue flowers.
- Queen of the Blues**. Light blue with beautiful silvery shades.
- Yellow Hammer**. Pure bright yellow.

Selected Named Hyacinths

These bulbs are not as large as Exhibition Size, but they will be found eminently satisfactory for forcing and bedding.

30c. each; \$3.50 per doz.; \$25.00 per 100

- Grand Maitre**. Deep sky-blue bells. Easy to force and good for bedding.
- King of the Blues**. Bright, dark blue flowers are borne upon a strong spike.
- Lady Derby**. Has a splendid truss of rose-pink blooms. Strong stem.
- La Victoire**. The spike is long and compactly filled with medium sized carmine-rose bells.
- L'Innocence**. Large bells, pure white, are borne on a strong truss. Excellent bedder or forcer.
- Queen of the Blues**. Light porcelain-blue bells; medium size; large, compact spike.
- Queen of the Pinks**. Lovely large compact rosy pink trusses.

Cadwell & Jones Select Bedding Hyacinths

These are quite satisfactory for obtaining sweeps of color, but the bells and the trusses may not be so fine and regular as those of our better varieties.

25c. each; \$2.75 per doz.; \$20.00 per 100

- Shades of Pink and Rose** **Light Blue Varieties**
- Pure White Varieties** **Red Shades**
- Dark Blue Varieties**

NARCISSUS or DAFFODILS

AMERICAN-GROWN

Narcissus Planting

We have been successful in securing bulbs grown under highly favorable conditions. The brilliant blooms of the Narcissus appear from March until well into May. The early blooming period and their handsome appearance, whether in large masses or as individual flowers, make them perhaps the most popular Spring-flowering bulbs. Plant the bulbs from 4 to 6 inches apart, depending upon the variety, and cover them to one and one-half times their depth. Bonemeal makes an ideal fertilizer; fresh stable manure should never be used.

CAPITAL CITY LAWN SEED is scientifically blended for lawns of putting-green beauty

FOR NEW LAWNS "CAPITAL CITY" LAWN SEED *"Sow the Lawn Seed that Experts Prefer"*
OR OLD, USE

To prepare a good lawn you must have seed of the proper kind, and use plenty of it; you cannot produce a fine and beautiful lawn with ordinary hay seed.

When to sow. During the cool temperature of early Fall, when the soil is warm and usually moist, seed can germinate quickly and make deep roots which are far less likely to be killed by Winter frosts than the shallow roots of Spring-sown grass being killed by the extreme heat of Summer. Weeds which are dormant in every soil spring up quickly but the majority of them, being annuals only, will be killed by the first severe frosts. 1 lb. of our Mixture will sow 200 square feet; 150 lbs. to the acre.

Lb. 65c.; 2 lbs. \$1.25; 3 lbs. \$1.85; 5 lbs. \$3.00; 10 lbs. \$5.00; 15 lbs. \$7.50; 25 lbs. \$12.50

SHADY NOOK LAWN GRASS SEED. For those shady places. **Lb. 75c.; 2 lbs. \$1.40; 3 lbs. \$1.95; 5 lbs. \$3.25; 10 lbs. \$6.00; 15 lbs. \$9.00; 25 lbs. \$15.00.**

CONNECTICUT GOLD SEAL LAWN GRASS SEED (Registered). **Lb. 80c.; 2 lbs. \$1.55; 5 lbs. \$3.75; 10 lbs. \$7.50; 25 lbs. \$18.75.**

CONNECTICUT GOLD SEAL SHADY LAWN GRASS SEED (Registered). **Lb. 85c.; 2 lbs. \$1.65; 5 lbs. \$4.00; 10 lbs. \$8.00; 25 lbs. \$20.00.**

SPECIAL MIXTURES for Golf Links, Polo Fields, Athletic Grounds, Bowling Greens, etc. We are prepared to furnish promptly, choice

qualities of **Fancy Recleaned Red-Top, Kentucky Blue Grass, Rye Grass, Creeping, Rhode Island, Astoria Bents, Chewing's Fescue** and other grasses used on golf courses and lawns.

It is to the customer's advantage to secure firm prices at the time seeds are required, as all prices are subject to market changes.

ZOTOX—Crab Grass Destroyer. See page 8.

WARNING—The Japanese Beetle Grubs have ruined some of our finest lawns in the Fall and Spring. Save your lawn—broadcast 12 lbs. Dry Arsenate of Lead per 1000 square feet. Can be easily applied mixed with Melorganite Lawn Food. Application lasts three to five years. Market price.

EXTRA FANCY RECLEANED WHITE CLOVER. For lawns. The low-creeping Clover grows quickly, thrives anywhere. **Market price.**
